NISHANT CHHILLAR

Address: Delhi, India | Contact: 8307538080

Website: https://nishantchhillar.tech | Email: nchhillar2004@gmail.com

OBJECTIVE

Passionate and driven young technologist with a strong foundation in computer science, coding, and programming. I am eager to contribute innovative solutions and develop impactful applications, games, and websites, with a relentless commitment to expanding technical expertise and contributing to the world of software development.

EDUCATION

Bachelor of Computer Applications (BCA)

Maharshi Dayanand University, Rohtak | Expected Graduation: 2026

• Actively engaging in coursework related to data structures and algorithms.

• Demonstrating a keen interest in coding challenges and problem-solving.

High School Diploma

Delhi Public School | Graduated: 2022

SKILLS

• Proficient in HTML, CSS, JavaScript, C, Python, and Java programming languages.

• Actively studying data structures and algorithms in Java.

• Solid understanding of software development principles and best practices.

PROJECTS AND ACTIVITIES

• Created a Pacman game using JavaScript, showcasing strong front-end development skills.

• Developed a feature-rich Android app in Java, demonstrating expertise in mobile application development.

• Launched a personal blog website, accessible at www.nishantchhillar.tech, to share insights on technology and coding.

• Maintaining a portfolio of 10 GitHub repositories, each showcasing various coding projects and accomplishments. GitHub - https://github.com/nchhillar2004

*Aspiring to contribute my technical prowess and creative mindset to a dynamic development team. Eager to harness my skills, dedication, and innovative spirit to create exceptional digital experiences and solutions. Reach out to me at nchhillar2004@gmail.com to explore how I can bring value to your organization.
